THE

Machine.

Read what Plankinton & Armour, the great packing house firm say when first buying the Machine.

OFFICE OF PLANKINTON & ARMOUR, { KANSAS CITY, Mo., March 6, 1880. GENTLEMEN: We would say that we have been trying for nearly ten years get a sewing machine that would sew satisfactorily the heavy muslin bags for hams. Have tried a number of machines, but until we tried the Royal St. John we have never been able to get a machine; out until we tree the royal St. John we have never been able to get a machine that would make a long elastic stitch without drawing or puckering the cloth. Your machine does the work perfectly, on account of the firm, round, clastic stitch peculiar to the St. John; and by its rapid motion and light running we are able to make on one machine about 1,500 sacks per day with ease to the operator. This we could not do on any other machine, although we tried them thoroughly. We also regard it as the simplest, most durable and lightest running machine we have ever tried. We have put it to the verest test and freely recommend it.

PLANKINTON & ARMOUR, per W. P. Allcutt, Supt.

What they say after using it 18 months, which would be equal to 3 hours a day for 15 years in ordinary family use. No other Machine CAN SHOW SUCH A RECORD. They use only the ordinary fam-

OFFICE OF PLANKINTON & ARMOUR, KANSAS CITY, Mo., April 25, 1881.

MESSRS. TRUMBULL, REYNOLDS & ALLEN: Gentlemen—In answer to your inquiry as to how we still like the ROYAL ST. JOHN Sewing Machines we bought of you, would say that after using them almost constantly for some eighteen months, and making on an average of over half a million sacks on each machine, or at the rate of 1,500 to 1,800 on each machine per day, we like them as well as when we first bought them. Cannot see any preceptible wear, and no Sewing Machine that we have ever seen would have done the work as satisfactory and with as little trouble and expense to us, not having cost one cent for repairing.

Plankingon & Armour, per Wm. P. Allcutt, Supt.
